

Certification in College Teaching Institute, May 10-11, 2018, Michigan State University

Worksheet for Reflections and Applications of Teaching and Learning

Session: Incorporating Technology in Teaching Thursday

What skills and techniques did I learn that will help me become a better educator?

You must choose the learning objective first, then choose an appropriate technology to convey the topic. Practice w/ tech before implementing it - and keep student learning wne in mind too!

What things am I still uncertain about regarding this topic that I need to investigate further in the future?

How does class size affect technology choice?

How does student abilities/disabilities affect tech choice?

How can I apply materials from this session to my own class to enhance the effectiveness of teaching and learning?

Simpler tools also = technology, and can sometimes be better than high tech methods. Technology can have unintended consequences, beneficial & nonbeneficial. Implement it & find out!
